DOCKET CONTROL

Re: Docket Control No. SW-02361A-08-0609

Dear Commissioners:

We have lived in The Boulders community for over 9 years and have had numerous problems with strong sewer odors from the Black Mountain Sewer Processing Plant which is located right in the middle of our community. We have complained repeatedly but the problem continues to exist. It is especially bad in the mornings and on weekends when usage is at its peak.

We ask that this outdated sewer processing plant be de-commissioned at the earliest possible date. It is recognized that there could be a cost to doing so and we are willing to pay our fair share to make our neighborhood a better place to live.

It is our understanding that Black Mountain actually wants to de-commission this antiquated and inefficient plant and have been working with our HOA to do so.

Your support for this move will be most appreciated by the members of our community.

Sincerely,

Byron Limbers

Re: Docket Control No. SW-02361A-08-0609

Dear Corporation Commissioners:

I ask that you support the de-commissioning of the Black Mountain Sewer Processing Plant located in the Boulders community in Carefree, Arizona. This plant is in the middle of our residential neighborhood and has been a constant source of foul sewer odor, loud noises, heavy truck traffic and, in general, a concern for the value of the homes in our community.

I realize that this might have a cost and am willing to share in a fair rate increase, if needed, to rid our community of this outdated sewer plant.

Thank you for your consideration of this matter.

Respectfully,

Susana Limbers
